Create a Tax Locale

How-to Guide

Tax Locales refer to the Countries, Provinces, States, Cities, and Zip Codes that may have various taxation policies related to the selling of products. [Home \(/s/\)](#)

System Admins must set the tax locale to account for the variations between multi-jurisdictional tax rates.

Create a Tax Locale:

1. Navigate to the Business Groups tab and select the desired **Business Group**.
2. Select **Related** to access the related lists and locate the **Tax Locales** related list.
3. Select the **New** button. The **New Tax Locale** modal will open.
4. Type a name in the **Tax Locale Name** field.

The screenshot shows the 'New Tax Locale' modal. It has a title bar 'New Tax Locale' and a section 'Information'. The form contains the following fields:

- 4. Tax Locale Name**: A text input field.
- 5. Tax Locale Field**: A text input field.
- 6. Locale Values (CSV)**: A text input field.
- 7. Default Tax Account**: A searchable dropdown menu with the placeholder text 'Search GL Accounts...'. A magnifying glass icon is on the right.
- Business Group**: A dropdown menu showing 'International Association' with a close button (X) on the right.

At the bottom of the modal are three buttons: 'Cancel', 'Save & New', and 'Save'.

5. In the **Tax Locale Field**, type the API name of the **Sales Order Line** field that the system is to evaluate for the Tax Locale.
 - a. To view **API Field Names**, navigate to **Setup**. In the **Quick Find** search bar, search for **Objects** and select **Objects** under the **Create** heading. From the **Custom Objects** list select the **Sales Order Line** object to view API field names.
6. In the **Locale Values (CSV)** field, provide the desired values that, when found in the Tax Locale Field, will cause an item to be taxed the associated Tax Rate. Typically, these values will be **State**, **Country**, or **Zip Code** values. Multiple values can be input in the Locale Values (CSV) field. However, these values must be separated by commas, i.e. United States, USA, US.
7. In the **Default Tax Account** field, select the desired **Tax Account**.
8. Select **Save**.
