

Avalara Tax Code Mapping Summary

Data Sources

Source	Count
Total Avalara tax codes in catalog	5701
Active Avalara tax codes (isActive = true)	3162
Salesforce Items (OrderApi__Item__c) total in org	748
Active items with sales history (query result)	121
Items mapped	121

The source dataset was filtered with the following criteria:

- OrderApi__Is_Active__c = TRUE (only active items)
- NOT Name LIKE '%FON%' (excludes Fonteva demo/sample data)
- ID IN (SELECT OrderApi__Item__c FROM OrderApi__Sales_Order_Line__c) (only items with at least one sales order)

This ensures the mapping covers only products that are actively sold by TCH.

Avalara Nexus Configuration

TCH's Avalara account has nexus configured for 7 US states plus the federal level. Only transactions shipped to or occurring in these jurisdictions will have tax calculated. The nexus configuration was retrieved from the Avalara API (GET /api/v2/companies/{companyId}/nexus).

Jurisdiction	Type	Nexus Type	Effective Since	Local Nexus	SST Member
United States	Country	Sales or Sellers Use Tax	2014-11-10	No	No
District of Columbia (DC)	State	Sales or Sellers Use Tax	2014-11-20	No	No

Jurisdiction	Type	Nexus Type	Effective Since	Local Nexus	SST Member
Illinois (IL)	State	Sales or Sellers Use Tax	2014-11-20	No	No
Michigan (MI)	State	Sales or Sellers Use Tax	2016-01-01	No	Yes
North Carolina (NC)	State	Sales or Sellers Use Tax	2014-11-10	No	Yes
New York (NY)	State	Sales or Sellers Use Tax	2014-11-10	No	No
Ohio (OH)	State	Sales or Sellers Use Tax	2014-11-20	No	Yes
Texas (TX)	State	Sales or Sellers Use Tax	2014-11-10	All	No

Key observations:

- **Texas** is the only state with `localNexusTypeId: "All"` , meaning local jurisdiction taxes (city, county, special district) are also calculated
- **Michigan, North Carolina, and Ohio** are Streamlined Sales Tax (SST) member states, which simplifies tax administration
- All nexus entries have `hasPermanentEstablishment: true` , indicating physical presence in each jurisdiction
- No local nexus is enabled for the other states (only state-level tax is calculated)

Mapping Methodology

How the product-to-tax-code mapping (SalesforceItemsTaxCodes.csv) was built

The mapping from Salesforce products to Avalara tax codes was built through a structured process that combines Salesforce metadata with Avalara's tax code taxonomy.

Step 1: Extract active products from Salesforce

A SOQL query was used to pull only items that are active, not demo data, and have real sales history:

```
SELECT Id, Name, Is_Education_Member__c, Is_Complimentary_Education__c,
       Is_NCP_Filing_Fee__c, OrderApi__Is_Contribution__c, OrderApi__Is_Membership__c,
       OrderApi__Is_Publication__c, OrderApi__Is_Default_Shipping_Rate__c,
       OrderApi__Is_Subscription__c, OrderApi__Is_Tax__c, OrderApi__Is_Tax_Deductible__c,
       OrderApi__Is_Taxable__c, OrderApi__Is_Unapplied_Payment__c,
       ProgramApi__Is_Program_Fee__c, ProgramApi__Is_Program_Maintenance_Fee__c
FROM OrderApi__Item__c
WHERE OrderApi__Is_Active__c = TRUE
      AND (NOT Name LIKE '%FON%')
      AND ID IN (SELECT OrderApi__Item__c FROM OrderApi__Sales_Order_Line__c)
```

This returned 121 items. The boolean fields serve as the primary classification signal.

Step 2: Classify each item into a product category

Each item was assigned a product category using a combination of Salesforce boolean flags and item name patterns, applied in priority order:

Priority	Rule	Product Category	Example Match
1	Name = "Discount"	Discount	"Discount"
2	Name contains "Rules Book"	Book/Manual	"ECCHO Rules Book - Printed Advertisement"
3	Name contains "Dues" or "Membership" or "Member Join Fee"	Membership Dues	"ECCHO - Full Member Dues", "ECCHO - Associate Membership"
4	Is_Subscription__c = true AND name contains "Education" or "Subscription"	Education Subscription	"Individual Education Subscription", "Corporate Education Subscription"

Priority	Rule	Product Category	Example Match
5	Name contains "Partnership" or "Sponsorship"	Sponsorship	"NCP Partnership - Gold Level", "ECCHO Operations Meeting Sponsorship"
6	Name starts with "Recording:"	Webinar/Webcast (Pre-recorded)	"Recording: Check Pain Points", "Recording: UCC Basics"
7	Name starts with "All About Check:" or "What do I do when:" or contains "Check Adjustments Insights", "Principles and Concepts of Image Cash Letters", "Overview of Check Returns", "RDC Risk Management"	Online Training	"All About Check: Check Basics", "What do I do when: HIDC Claims"
8	Name contains "NCP Exam" or "Exam Bundle" or "Practice Test"	Exam/Certification Fee	"NCP Exam 2025", "NCP Exam Bundle - 3 for 2"
9	Name contains "Paper Weight", "Umbrella", "Leather Cord", "Sports Bag", "Power Bank", or "Mouse Pad"	Merchandise/Tangible Goods	"NCP 10th Anniversary Paper Weight", "NCP Power Bank"
10	Name contains "Golf Hat"	Merchandise - Clothing	"NCP Golf Hat"
11	Name contains "Reception", "Dinner", "Luncheon", "Breakfast", or "Lunch"	Meal/Food Event	"(A) ECCHO Reception", "Day 1 Group Dinner"
12	Name contains "Workshop" or "NCP Session"	Training/Workshop	"5 for 4 NCP Workshop Bundle", "NCP

Priority	Rule	Product Category	Example Match
			Session Application Fee"
13	Everything else (committee meetings, roundtables, participation, etc.)	Conference/Event Registration	"ECCHO Business Committee Meeting", "Day 1 Participation"

Rules are applied in order: the first match wins. For example, "ECCHO Associate Member Quarterly Dues" matches rule 3 (contains "Dues") before it could reach rule 13 (default).

Step 3: Assign an Avalara tax code to each category

Each product category was mapped to the most specific active Avalara tax code that correctly describes the product's nature and delivery format:

Product Category	Avalara Tax Code	Selection Logic
Discount	OD010000	Avalara's standard discount code; generic discount, no specific subcode applies
Book/Manual	PB100000	Printed books/manuals; subcodes are for religious, puzzle, coupon books: not applicable
Membership Dues	OD020500	Professional association dues without entertainment; no TPP transfer included
Education Subscription	ST087650	Subscription-based access to training platform; Is_Subscription__c flag confirms model
Sponsorship	SA030000	Advertising/visibility services without transfer of tangible property
Webinar/Webcast (Pre-recorded)	ST087640	Pre-recorded content, sold individually (not subscription); "Recording:" prefix confirms format
Online Training	ST087634	Self-paced online courses; more specific than generic Training (ST080000)

Product Category	Avalara Tax Code	Selection Logic
Exam/Certification Fee	ST080010	Online skill assessments/exams; distinct from training in tax treatment
Merchandise/Tangible Goods	P0000000	Mixed promotional merchandise; no single subcode fits the variety
Merchandise - Clothing	PC040100	Clothing (B2C general); enables clothing exemptions in states like PA, NJ
Meal/Food Event	SF096370	Catering services at events; distinct from food-to-go (PF codes)
Training/Workshop	ST080000	In-person training; subcodes for simulations/tutoring don't apply
Conference/Event Registration	OA020500	Professional event admissions; not entertainment; leaf code (most specific)

Category Distribution

13 unique Avalara tax codes across 13 product categories.

Product Category	Item Count	Avalara Tax Code	Tax Code Description
Conference/Event Registration	33	OA020500	Admissions / Events Other Than Entertainment or Amusement
Webinar/Webcast (Pre-recorded)	18	ST087640	Training / Webinar Only / SaaS Platform / Pre-recorded, Non-Subscription
Online Training	16	ST087634	Online Training
Membership Dues	16	OD020500	Dues (Social, Fraternal, non-entertainment)
Meal/Food Event	10	SF096370	Catering Services
Exam/Certification Fee	9	ST080010	Online Skill Assessments

Product Category	Item Count	Avalara Tax Code	Tax Code Description
Merchandise/Tangible Goods	6	P0000000	Tangible Personal Property (TPP)
Sponsorship	5	SA030000	Advertising Services - No Transfer of TPP
Education Subscription	2	ST087650	Training / Webinar / SaaS Platform / Subscription / No download
Training/Workshop	2	ST080000	Training and Seminar
Book/Manual	2	PB100000	Books / Manuals
Merchandise - Clothing	1	PC040100	Clothing And Related Products (Business-To-Customer)-general
Discount	1	OD010000	Discounts

Tax Code Selection Rationale

This section documents the selection criteria for each of the 13 Avalara Tax Codes used in the mapping. For each code: what it represents, which products were mapped to it, why this code was chosen over alternatives, and the fiscal impact of the choice.

OA020500: Admissions / Events Other Than Entertainment or Amusement (33 of 121 items)

Products: committee meetings, roundtables, conference sessions, and event participation (e.g., "ECCHO Operations Committee Meeting", "ECCHO Business Committee Meeting", "ECCHO Roundtable Discussion", "2025 NCP Cut Score Meeting", "Day 1 Participation").

Why this code: professional and industry meetings in the banking sector do not qualify as entertainment. OA020500 covers admissions to events that are not entertainment or amusement, which is the correct classification for business committee meetings, roundtables, and conference participation. Alternative codes such as OA020100 (entertainment) or OA020700 (golf) do not apply because TCH events are professional/educational. OA020500 is a leaf code (no more specific children available), making it the most granular level in the Avalara taxonomy.

Tax impact: prevents professional events from being taxed as entertainment, which would generate incorrect rates in states that differentiate entertainment admissions from professional event admissions.

ST087640: Training / Webinar / Pre-recorded, Non-Subscription (18 of 121 items)

Products: pre-recorded webinars and educational content sold as individual access without subscription (e.g., "Recording: All You Wanted To Know About Check Adjustments", "Recording: Check Pain Points", "Recording: UCC Warranties from A to U", "Recording: Combating Cashiers Check Fraud", "Recording: Exploring the ECCHO Rules").

Why this code: all of these items are explicitly pre-recorded content (identified by the "Recording:" prefix in the item name) sold individually without a subscription model. ST087640 specifies this exact combination: pre-recorded, non-subscription training content. This distinction matters because some jurisdictions classify pre-recorded content as a "digital product" (potentially taxed as digital TPP) while live training is classified as a "service." Using the generic ST080000 (Training and Seminar) would not capture this distinction.

Tax impact: jurisdictions that differentiate live from pre-recorded content apply the correct rate. States that exempt live services but tax digital products will correctly tax pre-recorded content.

ST087634: Online Training (16 of 121 items)

Products: structured online courses and digital educational modules (e.g., "All About Check: Check Basics: What Every Banker Should Know", "What do I do when: HIDC Claims", "Principles and Concepts of Image Cash Letters and Electronic Check Adjustments", "Check Adjustments Insights into Investigation Types (ITYPs)", "RDC Risk Management").

Why this code: these items are self-guided online learning modules, distinct from pre-recorded webinars (ST087640) because they are structured courses rather than recorded presentations. ST087634 (Online Training) is more specific than ST080000 (generic Training) and captures the digital, self-paced nature of the delivery. Several US states treat online training differently from in-person training: some exempt digital education services while taxing in-person seminars.

Tax impact: enables Avalara to apply digital education service exemptions in jurisdictions where they exist.

OD020500: Dues (Social, Fraternal, non-entertainment) (16 of 121 items)

Products: membership fees, annual dues, and join fees (e.g., "ECCHO - Full Member Dues", "ECCHO Associate Member Quarterly Dues (20B upto 60B deposit tier)", "ECCHO - Associate Membership", "ECCHO Participating Member Join Fee (Reduced)", "2022 Prorated PM Dues (Central Bank MO)").

Why this code: professional/trade association dues without an entertainment component fall under OD020500. This includes recurring annual/quarterly dues, prorated dues for new members, join fees, and placeholder membership items. Alternative codes such as OD020100 (dues with entertainment) or OD020400 (dues with guaranteed TPP transfer) do not apply because ECCHO memberships are professional and do not include entertainment or tangible product delivery as a benefit. This is a leaf code: the most specific level available.

Tax impact: many states exempt professional association dues without an entertainment component. Using the correct code ensures these exemptions are applied.

SF096370: Catering Services (10 of 121 items)

Products: receptions, dinners, and food events at conferences (e.g., "(A) ECCHO Reception", "ECCHO/SVPCO Reception and Dinner", "Welcome Reception", "Day 1 Group Dinner", "ECCHO Operations Committee Networking Reception").

Why this code: when food is sold as part of a catering service for events, the correct code is SF096370 (Catering Services) rather than the prepared food codes (PF - Food/Beverages). The distinction matters: catering is a service that includes preparation, delivery, and serving, while PF codes are for direct food sales. Many states tax catering differently from food-to-go. This is a leaf code.

Tax impact: correctly applies catering (service) rules instead of food sale (product) rules.

ST080010: Online Skill Assessments (9 of 121 items)

Products: exam and professional certification fees (e.g., "NCP Exam 2025", "NCP Exam Rollover Fee (early)", "NCP Exam Retest Fee (current year)", "NCP Exam Practice Test", "NCP Exam Bundle - 3 for 2 (ECCHO Member Rate)").

Why this code: exams and competency assessments are distinct from training. ST080010 specifically covers online skill assessments, which is exactly what NCP certification exams represent. This includes the exam itself, retests, rollovers, practice tests, and exam bundles. Some states exempt

professional exam fees or apply different rules than those for training services. This is a leaf code: no more specific children exist.

Tax impact: correctly separates exams from training, enabling professional assessment exemptions to be applied where they exist.

P0000000: Tangible Personal Property (6 of 121 items)

Products: NCP-branded promotional merchandise (e.g., "NCP 10th Anniversary Paper Weight", "NCP 10th Anniversary Umbrella", "NCP Leather Cord Keeper", "NCP Sports Bag", "NCP Power Bank", "NCP Mouse Pad").

Why this code: these items are physical promotional products that do not fit any specific Avalara subcategory. Child codes of P0000000 cover categories such as PB (books), PC (clothing), PO (office supplies), PE (equipment), none of which accurately describes this mix of promotional merchandise (paper weights, power banks, cord keepers, sports bags). P0000000 is the catch-all code for tangible goods and ensures standard TPP treatment.

Tax impact: TPP is taxed in most states. The general code ensures tangible items are not inadvertently exempt from taxation.

SA030000: Advertising Services - No Transfer of TPP (5 of 121 items)

Products: NCP partnership/sponsorship packages and event sponsorships (e.g., "NCP Partnership - Silver Level", "NCP Partnership - Gold Level", "NCP Partnership - Diamond Level", "2024 NCP Partnership - Platinum Level", "ECCHO Operations Meeting Sponsorship").

Why this code: partnership and sponsorship packages provide brand visibility and organizational benefits without transferring tangible property. SA030000 covers advertising services without TPP transfer, which is the nature of a sponsorship/partnership. Child codes such as SA030200 (public relations), SA030300 (market research), or SA038000 (advertising agency) do not apply because partnership/sponsorship packages are none of those specific services.

Tax impact: correctly classifies sponsorship as an advertising service, not as a product purchase or media space.

ST087650: Training / Subscription / No download (2 of 121 items)

Products: education subscriptions providing ongoing access to content (e.g., "Individual Education Subscription", "Corporate Education Subscription").

Why this code: these items represent recurring subscriptions granting access to an educational content platform, without download of materials. Both items have the `Is_Subscription__c = true` flag in Salesforce, confirming their subscription nature. The sales model (subscription vs. one-time purchase) affects the tax treatment: several states classify training platform subscriptions as SaaS, which has different treatment from a one-time course purchase. ST087650 correctly reflects this subscription model.

Tax impact: jurisdictions that tax SaaS/subscriptions differently from one-time services apply the correct rule.

ST080000: Training and Seminar (2 of 121 items)

Products: in-person workshops and session bundles (e.g., "5 for 4 NCP Workshop Bundle", "NCP Session Application Fee").

Why this code: these items represent in-person training events where the attendee is physically present. ST080000 is the root code for the Training category and applies to general in-person seminars and workshops. More specific child codes exist (ST080020 for simulations, ST080032 for in-person tutoring), but they do not apply because NCP workshops are general educational sessions, not simulations or one-on-one tutoring.

Tax impact: states that differentiate in-person training from online training correctly apply the rules for in-person services.

PB100000: Books / Manuals (2 of 121 items)

Products: printed books and manuals (e.g., "ECCHO Rules Book - Printed Advertisement", "2024 ECCHO Rules Book - Printed Advertisement").

Why this code: PB100000 is the base code for books and manuals. Child codes cover subcategories such as religious books (PB100300), bibles (PB100400), puzzle books (PB100818), and coupon books (PB100819). None of these subcategories apply to ECCHO rules books, which are technical professional publications. PB100000 is the correct level of specificity.

Tax impact: several states exempt educational books or apply reduced rates. The PB100000 code ensures these rules are applied.

PC040100: Clothing (Business-To-Customer) - general (1 of 121 items)

Products: branded apparel (e.g., "NCP Golf Hat").

Why this code: PC040100 covers general B2C clothing. A hat/cap is clothing under Avalara's taxonomy. This classification matters because several states (PA, NJ, MN, among others) exempt clothing from sales tax. Using the generic TPP code (P0000000) would prevent the clothing exemption from being applied.

Tax impact: states with clothing exemptions correctly apply the exemption.

OD010000: Discounts (1 of 121 items)

Products: generic discount item used to apply price reductions on orders (e.g., "Discount").

Why this code: OD010000 is Avalara's standard code for discounts. Child codes exist for specific types (OD010010 - Loyalty Rewards, OD010101 - Early Payment Discount), but when the discount is generic and applied broadly, the parent code is the most appropriate because it does not restrict to any specific discount mechanism.

Tax impact: discount treatment depends on how it relates to the order items. The generic code ensures Avalara applies the jurisdiction's standard discount rule.

All Avalara Tax Codes Used in Mapping

13 unique tax codes used. Each code below has been verified to exist in the AvalaraTaxCodes.csv file with isActive = true.

Avalara tax codes are organized in a hierarchy (parent → child). A code that has **no subcodes below it** is the most specific level available: the most granular classification Avalara offers. A code that **has subcodes below it** is a broader category; it was chosen when none of its subcodes is a better match for the products in question.

Tax Code	Description	isPhysical	Items Mapped	Most Specific Available?
OA020500	Admissions / Events Other Than Entertainment or Amusement	false	33	Yes:no subcodes exist
OD010000	Discounts	false	1	No:subcodes exist (Loyalty Rewards, Early Payment, etc.) but the discount is generic, so the broader code is appropriate
OD020500	Dues (Social, Fraternal, non-entertainment)	false	16	Yes:no subcodes exist
P0000000	Tangible Personal Property (TPP)	true	6	No:subcodes exist (Books, Clothing, Office Supplies, etc.) but none matches promotional merchandise like paper weights or power banks
PB100000	Books / Manuals	true	2	No:subcodes exist (Religious, Puzzle, Coupon books) but none applies to professional/technical publications
PC040100	Clothing And Related Products (B2C)-general	true	1	No:subcodes exist (Boots, Hosiery, etc.) but the general clothing code is appropriate for a hat
SA030000	Advertising Services - No Transfer of TPP	false	5	No:subcodes exist (PR, Market Research, Media Placement) but none matches sponsorship/partnership packages
SF096370	Catering Services	false	10	Yes:no subcodes exist

Tax Code	Description	isPhysical	Items Mapped	Most Specific Available?
ST080000	Training and Seminar	false	2	No:subcodes exist (Online Training, Webinar, etc.) but this code is used only for in-person workshops where no subcode is a better fit
ST080010	Online Skill Assessments	false	9	Yes:no subcodes exist
ST087634	Online Training	false	16	Yes:no subcodes exist
ST087640	Training / Webinar Only / SaaS Platform / Pre-recorded, Non-Subscription	false	18	Yes:no subcodes exist
ST087650	Training / Webinar / SaaS Platform / Subscription / No download	false	2	Yes:no subcodes exist

Notes

- All 5,701 Avalara tax codes were read from the CSV file
- Only codes with isActive = true (3,162 codes) were considered for mapping
- Every tax code used in this mapping has been verified to exist in the CSV with isActive = true
- Avalara recommends using the most specific (leaf) tax code available for accurate tax calculation
- Parent codes were retained only when no child code is a better fit for the product type
- Items were filtered to active-only with real sales history, excluding Fonteva demo data
- "ECCHO" (Electronic Check Clearing House Organization) items represent the core of TCH's product catalog
- "NCP" (National Check Professional) items cover certification, exams, workshops, and branded merchandise
- Training content was split across 4 tax codes based on delivery format: in-person (ST080000), online courses (ST087634), pre-recorded webinars (ST087640), and subscription access

(ST087650):this ensures jurisdiction-specific rules for each format are applied correctly

- Receptions and dinners at conferences are mapped to Catering (SF096370), distinct from the meeting/session admission items (OA020500), because the tax treatment of food services differs from event admissions in many states

Appendix: Available Subcodes for Broader Tax Codes

The 6 tax codes marked as "No" in "Most Specific Available?" have more granular subcodes in Avalara's catalog. These subcodes were not selected because none is a better fit for the mapped products. They are listed below for reference, should the client wish to evaluate alternatives.

OD010000: Discounts:5 active subcodes

Subcode	Description
OD010010	Loyalty Rewards Points / Earned Through Purchases
OD010101	Cash Discount / Retailer Discounts For Early Payment / Discount Taken After Point of Sale
OD010102	Cash Discount / Retailer Discounts For Early Payment / Discount Taken at Point of Sale
OD010103	Retailer Discounts For Paying With Cash Rather Than Credit
OD010300	Discounts on TPP

Why the broader code was chosen: TCH's discount item is a generic line-item discount not tied to any specific mechanism (loyalty, early payment, or cash). None of the subcodes applies.

P0000000: Tangible Personal Property:353 active subcodes (relevant subset shown)

P0000000 is the root of Avalara's entire physical product taxonomy. Its subcodes span hundreds of product categories (food, health care, vehicles, agricultural products, etc.). The subcodes most relevant to TCH's promotional merchandise are:

Subcode	Description	Why not selected
PO100000	Office Supplies	Could apply to NCP Mouse Pad; does not apply to paper weights, power banks, or sports bags

Subcode	Description	Why not selected
PE200706	Exercise Supplies	Could apply to NCP Sports Bag if considered exercise gear; promotional bag is a better fit for generic TPP
PT030000	Telecommunication Machinery & Equipment	Does not apply to a promotional power bank (it's a battery accessory, not telecom equipment)
PC080000	Computer Hardware (Business-to-Customer)	Does not apply:a mouse pad is a desk accessory, not computer hardware
PG068810	Glassware	Does not apply:none of the items are glass products

Why the broader code was chosen: these 6 items are a diverse mix of promotional merchandise (paper weight, umbrella, cord keeper, sports bag, power bank, mouse pad). No single subcode covers the full set, and splitting them across multiple subcodes would not improve tax accuracy since all are taxed as standard TPP in every jurisdiction.

PB100000: Books / Manuals:7 active subcodes

Subcode	Description
PB100200	Books / Manuals - other
PB100210	Code books and textbooks for the construction industry
PB100300	Books / Manuals - religious
PB100400	Bibles, hymnals, prayer books, and textbooks to church or religious organization
PB100817	Comic Books
PB100818	Puzzle Books
PB100819	Coupon or Discount Book

Why the broader code was chosen: ECCHO Rules Books are professional/technical publications. PB100200 ("other") could be considered, but it has no tax treatment advantage over PB100000:both are treated identically by Avalara's tax engine. The remaining subcodes (religious, comic, puzzle, coupon, construction) clearly do not apply.

PC040100: Clothing (B2C) - general:15 active subcodes

Subcode	Description
PC040101	Aprons - household
PC040103	Athletic supporters
PC040105	Bandanas
PC040106	Bathing suits and caps
PC040108	Belts and suspenders
PC040109	Bibs
PC040110	Boots
PC040120	Garters and garter belts
PC040130	Hosiery
PC040140	Rainwear
PC040150	Suspenders
PC040168	Aqua Shoes
PC041098	Nursing Bras
PC041114	Receiving Blankets
PC041210	Gloves: Work / Chore / Garden / Jersey

Why the broader code was chosen: the mapped item is "NCP Golf Hat." None of the subcodes covers hats or caps (the B2B taxonomy has PC030129 for "Hats and caps" but the B2C equivalent does not exist as a separate subcode). PC040100 (general B2C clothing) is the correct match.

SA030000: Advertising Services - No Transfer of TPP:14 active subcodes

Subcode	Description
SA030200	Public relations
SA030300	Market research and polling

Subcode	Description
SA030400	Media Placement
SA035898	Advertising Media / Inserts Distributed via Newspaper Insert
SA035906	Advertising Media / Inserts Distributed via Shared Mail Package
SA035914	Advertising Media Inserts Distributed via Solo Mail
SA035922	Advertising Media Inserts Sent Directly to Business Purchaser for Distribution
SA035930	Delivery Charges for Advertising Media Inserts via Newspaper Insert
SA035938	Delivery Charges for Advertising Media Inserts via Shared Mail Package
SA035946	Delivery Charges for Advertising Media Inserts via Solo Mail
SA035954	Delivery Charges for Advertising Media Inserts Sent Directly to Business Purchaser
SA036298	Online Advertising
SA037000	Outdoor Advertising
SA038000	Advertising Agency Services

Why the broader code was chosen: NCP Partnership packages and ECCHO sponsorships provide brand visibility and organizational access: they are not PR (SA030200), market research (SA030300), media placement (SA030400), advertising inserts (SA035xxx), online ads (SA036298), outdoor ads (SA037000), or agency services (SA038000). None of the subcodes describes event/conference sponsorship, so the broader SA030000 is the best match.

ST080000: Training and Seminar: 15 active subcodes

Subcode	Description
ST080010	Online Skill Assessments
ST080020	Simulation Trainings / In-person / Use of basic equipment
ST080021	Simulation Trainings / Online / Use of computer software
ST080030	Exam Preparation & Tutoring / Online / Interactive
ST080031	Exam Preparation & Tutoring / Online / Non-interactive, on-demand

Subcode	Description
ST080032	Exam Preparation & Tutoring / In-person
ST087630	Training / Webinar Only / SaaS Platform / Live, Non-Subscription
ST087631	Training / Webinar / SaaS Platform / Live, Non-Subscription and Materials (Electronic) / Lump Sum
ST087632	Training / Webinar / SaaS Platform / Live, Non-Subscription and Materials (Tangible) / Lump Sum
ST087634	Online Training
ST087640	Training / Webinar Only / SaaS Platform / Pre-recorded, Non-Subscription
ST087641	Training / Webinar / SaaS Platform / Pre-recorded, Non-Subscription and Materials (Electronic) / Lump Sum
ST087642	Training / Webinar / SaaS Platform / Pre-recorded, Non-Subscription and Materials (Tangible) / Lump Sum
ST087650	Training / Webinar / SaaS Platform / Subscription / No download
ST087651	Training / Webinar / SaaS Platform / Subscription / Download of course or course materials

Why the broader code was chosen: ST080000 is used only for 2 items: "5 for 4 NCP Workshop Bundle" and "NCP Session Application Fee." These are in-person workshop items that are not simulations (ST080020), not tutoring (ST080032), not online (ST087634), and not webinars (ST087630/ST087640). The general in-person training code is the correct fit. Note that 4 of ST080000's subcodes (ST080010, ST087634, ST087640, ST087650) are already used in this mapping for other product categories where they are a better match.
